Alaa Asaad

Address: Beirut, Lebanon

Email: alaa.b.asaad@gmail.com **| Phone Number:** +961 81 817 756 **|** LinkedIn | GitHub

SUMMARY

Full-stack developer with hands-on experience in building scalable web applications, database management, and API integration. Proficient in Angular, React.js, .NET, and Node.js, with strong problem-solving, adaptability, and critical thinking skills. Passionate about delivering efficient, user-centric solutions while leveraging AI, cloud technologies, DevOps, and best development practices.

PROFESSIONAL EXPERIENCE

Backend Team Lead Intern | URM Enroll – *Remotely, Berlin* **January 2026 – Februaury 2026**

Leading backend architecture and AI integration for a multi-tenant SaaS platform connecting international students and nurses with German universities and hospitals.

- Architected PostgreSQL 16 database with Row-Level Security (RLS) ensuring secure multi-tenant isolation and GDPR-compliant data handling across 10+ core entities.
- Built AI-powered CV parsing pipeline using Edge Functions (Deno/TypeScript) and LLM integration, achieving 70% structured data extraction accuracy.
- Developed weighted matching engine (0–100 scoring) combining eligibility constraints and performance-based criteria to optimize applicant placement.
- Implemented automated eligibility verification and compliance tracking system processing 500+ documents with audit logging.

Technologies: Supabase, Deno, TypeScript, PostgreSQL, NestJs, REST API's

Full Stack Developer Intern | ADADK – *Remotely, Berlin* **December 2025 – January 2026**

Engineered an IoT-based smart water management system that enabled real-time monitoring and automated leak detection for property managers, reducing water waste incidents by enabling proactive alerts and cutting response time.

- Developed RESTful APIs for IoT device lifecycle management, enabling seamless telemetry ingestion and real-time processing for 100+ connected devices.
- Architected PostgreSQL relational database supporting multitenancy across users, properties, zones, devices, and technicians with optimized query performance.
- Built real-time alerts and notifications using WebSockets (Socket.io) and Redis delivering instant notifications for anomaly detection and threshold breaches.
- Implemented enterprise-grade security JWT authentication, Google OAuth, and role-based for secure multi-role access control.

Technologies: NestJs, TypeScript, PostgreSQL, TypeORM, Socket.io, Redis, JWT, OAuth

Project Management and Support Intern | INJAZ Lebanon – *Beirut, Lebanon* **November 2025 – December 2025**

Streamlined program operation and supplier coordination for youth entrepreneurship initiatives, improving project delivery timelines and reducing manual overhead process automation and systematic tracking.

- **Automation Initiative:** Developed Python automation script using Pandas and OpenPyXL to process student registration data and generate compliance reports, reducing manual data entry by 40% and eliminating human errors in tracking 200+ student records.
- Coordinate supplier documentations and finalized partnership agreements in post-scale capacity, ensuring 100% on-time delivery of program materials and services.
- Supported daily operations (data entry, scheduling, documentation), improving workflow efficiency and team productivity.

Technologies: Python (Pandas, OpenPyXL), Google Sheets API, Excel, Data Analytics

Full Stack Developer Intern | IDS Fintech – *Beirut, Lebanon* **July 2024 – August 2024**

Contributed to fintech application development focused on improving transaction processing performance and user engagement and user engagement for banking clients, delivering features that enhanced application responsiveness and data handling capabilities.

- Optimized database interactions and query performance using SQL, ADO.NET, Entity Framework, and Dapper, reducing API response times by 35% and improving data retrieval efficiency.
- Developed full-stack features using C#, JavaScript, JQuery, Angular and DevExtreme, delivering responsive UI components and business logic that increased user engagement by 30%.

Technologies: C#, .Net, Angular, JavaScript, jQuery, DevExtreme, SQL Server, Entity Framework, Dapper, ADO.NET, REST APIs

PROJECTS

Fillia (Award-Winning Capstone Project)

A donation and sales platform aiding crisis-affected Lebanese communities, featuring AI-powered verification, fraud detection, and personalized matching algorithms that increased donation-case matching success by 22% and accelerated case submissions by 15%.
Technologies Used: React.js (Vite), Tailwind CSS, Framer Motion, Node.js, Express.js, MongoDB Atlas, Cosine Similarity, AI (Cosine Similarity, Trust Verification, Image Validation), Docker, Hostinger, Jest.

Table Booking System

A restaurant reservation system that allows users to book tables, manage reservations, and receive real-time availability updates. Includes an admin dashboard, user authentication, notifications, and secure booking confirmation.
Technologies Used: Angular, TypeScript, HTML, CSS, Bootstrap, .NET Core, Entity Framework, ASP.NET Web API, Azure, SQL Server.

Buildings Management System

Enterprise-grade property management platform with role-based (Super Admin / Admin) authentication, enabling efficient management of residential complexes, building and administrative personnel with search, pagination, and automated admin creation workflow.
Technologies Used: Flask, SQLAlchemy, MySQL, Angular, Angular Material, JWT, REST APIs, Repository Pattern.

Waltrack – Personal Finance Expense Tracker

Financial management web application with transaction categorization, detailed expense history, and interactive data visualizations, helping users analyze spending patterns and improve budget management.
Technologies Used: ASP.NET Core MVC, C#, SQL Server, Syncfusion UI Components, HTML5, CSS3, JavaScript.

EDUCATION

Bachelor of Science in Computer Science | Al Maaref University (MU) – *Beirut, Lebanon* **October 2021 – February 2025**

- Secured Third Place in Al Maaref University's Best Graduation Project Competition for the academic year 2024–2025, recognizing innovation, technical excellence, and impactful problem-solving.

SKILLS

Programming Languages: JavaScript, TypeScript, C#, Python, PHP (Basic).
Frontend Development: HTML, CSS, React.js, Next.js, Angular, DevExtreme, Tailwind CSS, Bootstrap, Framer Motion, Syncfusion UI.
Backend Development: Node.js, Express.js, ASP.NET, Flask, Nest.js, WebSockets (Socket.io).
Database and ORM: MySQL, SQL, MongoDB Atlas, SQLAlchemy, PostgreSQL, TypeORM, Supabase.
Tools: Git, Postman, SSMS, MySQL Workbench, Jupyter Notebook, Azure, Docker, Jira, Canva, MS Office, Redis, PhpMyAdmin, XAMPP.
Development Principles and Methodologies: MVC Architecture, SOLID Principles, RESTful APIs, Agile Methodologies (Scrum, Kanban).
Soft Skills: Problem-Solving, Adaptability, Team Collaboration, Communication, Time Management, Attention to Detail, Critical Thinking.
Languages: Arabic (native), **English** (fluent).

CERTIFICATES

Ready4Work – INJAZ Lebanon | Credential ID: AA25095481 **September 2025**

Generation AI – eFlow.ai, Google.org | Credential ID: SxnRVzpgW6-iy **September 2025**

Clean and Scalable Code – Software Engineering Excellence | Credential ID: cert-dsc0d810c **August 2025**

Entrepreneurship and AI – Ektidar Project | Credential ID: 1R5YBnBQUxPbi **July 2025**

Prompt Engineering – Tech Trendy | Credential ID: pBUYmniEWcje1 **July 2025**

Foundational C# with Microsoft – Microsoft | Credential ID: alaa_asaad-fcswm **July 2025**

MERN Stack Development – Udemy | Credential ID: UC-4dc27feb-8648-4a67-835a-155ecc0376ce **May 2025**

Frontend Developer (React) Certificate – HackerRank | Credential ID: 1c0cf525e0b **May 2025**

PHP Boot Camp with MySQL – Udemy | Credential ID: UC-91941e06-7bc8-464e-9278-64ac6b61e68e **December 2024**

React JavaScript – Alison | Credential ID: 1ymUjGYNAvTy1YwB_drC62lxmdhHQVz5d **October 2024**
